Technical Bulletin

Subject: Use of Service Champ OF2222/WPH48 on Dodge Caliber

TSB02-06

Date: October, 2006

A recent Application Bulletin states OF2222/WPH48 should be used to service 2007 Dodge Caliber. There has been some concern about the use of OF2222/ WPH48 on these vehicles because it is not identical to Mopar 04884900AB. Champion Laboratories' Engineering Group has conducted a complete fit check with OF2222/WPH48 on all models and confirms this filter will install and perform correctly. The filter differences are listed below.

Gasket Type :

Mopar = molded p-ring

OF2222/WPH48 = rectangular lathe cut

Gasket OD :

Mopar = 2.57 inches

OF2222/WPH48 = 2.77

Gasket ID :

Mopar = 2.31

OF2222/WPH48 = 2.40

Backplate Configuration :

Mopar = concave crown

OF2222/WPH48 = convex crown

Filter Height :

Mopar = 2.94

OF2222/WPH48 = 3.34

Filter Seam Diameter :

Mopar = 3.20

OF2222/WPH48 = 3.00
